PROFESSIONAL SUMMARY

B.Tech graduate in Artificial Intelligence and Data Science with hands-on full-stack development experience utilizing Java, Spring Boot, React.js, and Node.js. Proven ability to build scalable web applications, architect secure RESTful APIs with JWT authentication, and design robust database schemas using MySQL and MongoDB. Driven software developer seeking an entry-level position to contribute strong problem-solving skills and clean code practices.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: HTML5, CSS3, React.js, Redux, Context API, Axios

Backend: Spring Boot, Node.js, Express.js, RESTful APIs

Java Technologies: OOP, Collections, Multithreading, Spring Security, Hibernate/JPA

Databases: MySQL, MongoDB, Mongoose

Authentication: JWT, Password Hashing

Tools: Git, GitHub, Maven, Postman

PROJECTS

FestMate – Event Management Web App 🔗

11/2025 – 01/2026

React.js, Node.js, Express.js, MongoDB, JWT

- Built an end-to-end event management platform supporting dynamic user registrations and schedule tracking.
- Secured API routes and session workflows using JSON Web Tokens (JWT) and encrypted password hashing.
- Designed scalable NoSQL schemas in MongoDB with Mongoose and developed high-throughput REST APIs using Express.js.

ApplyVault - Job Application Tracker 🔗

04/2026 – 07/2026

React.js, Spring Boot, Java, MySQL, RESTful APIs

- Architected a full-stack job application tracker using React.js and Spring Boot to streamline multi-stage application tracking.
- Engineered secure RESTful APIs integrated with Spring Data JPA and MySQL for optimized CRUD operations.
- Implemented token-based user authentication and modular state management to ensure seamless UI status updates.

FitSphere – Gym Management System 🔗

01/2026 – 03/2026

React.js, Spring Boot, Java, MySQL, REST APIs

- Developed a responsive web application to automate gym membership workflows, attendance logs, and subscription tracking.
- Designed normalized relational database schemas in MySQL and built 8+ backend endpoints for reliable data handling.
- Built dynamic UI dashboards using React functional components, hooks, and Axios for asynchronous API communication.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Data Science

11/2021 – 05/2025

Gnanamani College of Technology

Namakkal, TN

Percentage: 68%

CERTIFICATIONS & ACCOMPLISHMENTS

Certified Java Full Stack Development – Code Pilot
